Manufacturing Digital Transformation and Smart Factory

Smart Factory Solutions

F1Soft specializes in smart factories, offering tailored solutions to amplify your business value.

F1Soft's solution is the best choice

ERP, MES, SRM solutions that improve business efficiency and productivity
ERP manages company operations, MES oversees manufacturing, and SRM handles the supply chain. Together, they boost company performance.

iPlusMES

Enhancing worker productivity through real-time production process monitoring.

Manufacturing Process Monitoring

Software system primarily used in manufacturing environments to manage and monitor production processes in real-time.

Real-time Data Management

Collection of facility data through PLC integration, enhanced convenience using barcodes, RFID, etc., through the POP system.

Process Optimization

Optimizing production processes by establishing production plans, scheduling, managing work orders, quality inspections, and automating production tasks.

iPlusERP

Optimizing company processes by increasing data usability.

Electronic Payments

Software system efficiently integrating various business processes across departments and functions within a company.

Core Business Data Integration

Consolidating key business tasks like reference data, sales management, purchasing, production, inventory, quality, HR, and accounting in a centralized database.

Process Optimization

Enhancing data consistency and process efficiency within the company, supporting decision-making and optimizing business processes.

iPlusSCM

Boosting supply chain trust for cost savings and efficiency.

Supply Chain Management

Software system effectively managing the company's supply chain and relations with suppliers.

Improving Supplier Trust

Providing tools and processes to enhance supplier selection, negotiation, contract management, performance evaluation, and supply chain transparency.

Quality Enhancement

Achieving cost savings, improved supplier reliability, and quality of products/services through supplier relationship management.
